INFO@FIONAJOHNSONPHOTOGRAPHY.COM

I am a professional photographer and the owner/artist behind the lens at Fiona Johnson Photography. I am an in-home newborn photographer serving all of CT.

I have been a professional newborn photographer in Connecticut since 2006. With over 12 years of experience handling and posing these little bundles, you can be sure your baby will be treated with the utmost care. I have 4 children of my own, so I know first-hand how precious these first days of life are.

Within this catalog, you will find valuable information on what to expect and how to prepare for a newborn photo session. Pricing and product information is also covered. A list of frequently asked questions has been prepared, but please feel free to contact me if you have additional questions.

MY STYLE

I like clean and simple, soft lighting and clear focus to ensure that every important detail is captured. My study of fine art has equipped me with a clear visual eye for composition, color and light. I enjoy keeping the focus on the baby and all the little details that will change so quickly.

expectations

BEFORE YOUR SESSION

As soon as you make the decision to book, contact me!

We can discuss the specifics and talk about your vision for your session. This will allow me to get to know you and give me a better idea of what you are looking for. It is important to book as soon as possible to give yourself an adequate amount of time to prepare. Technically, the process is simple, but your newborn photos are going to last a lifetime, so it is only logical to take time to consider what you might want from your session.

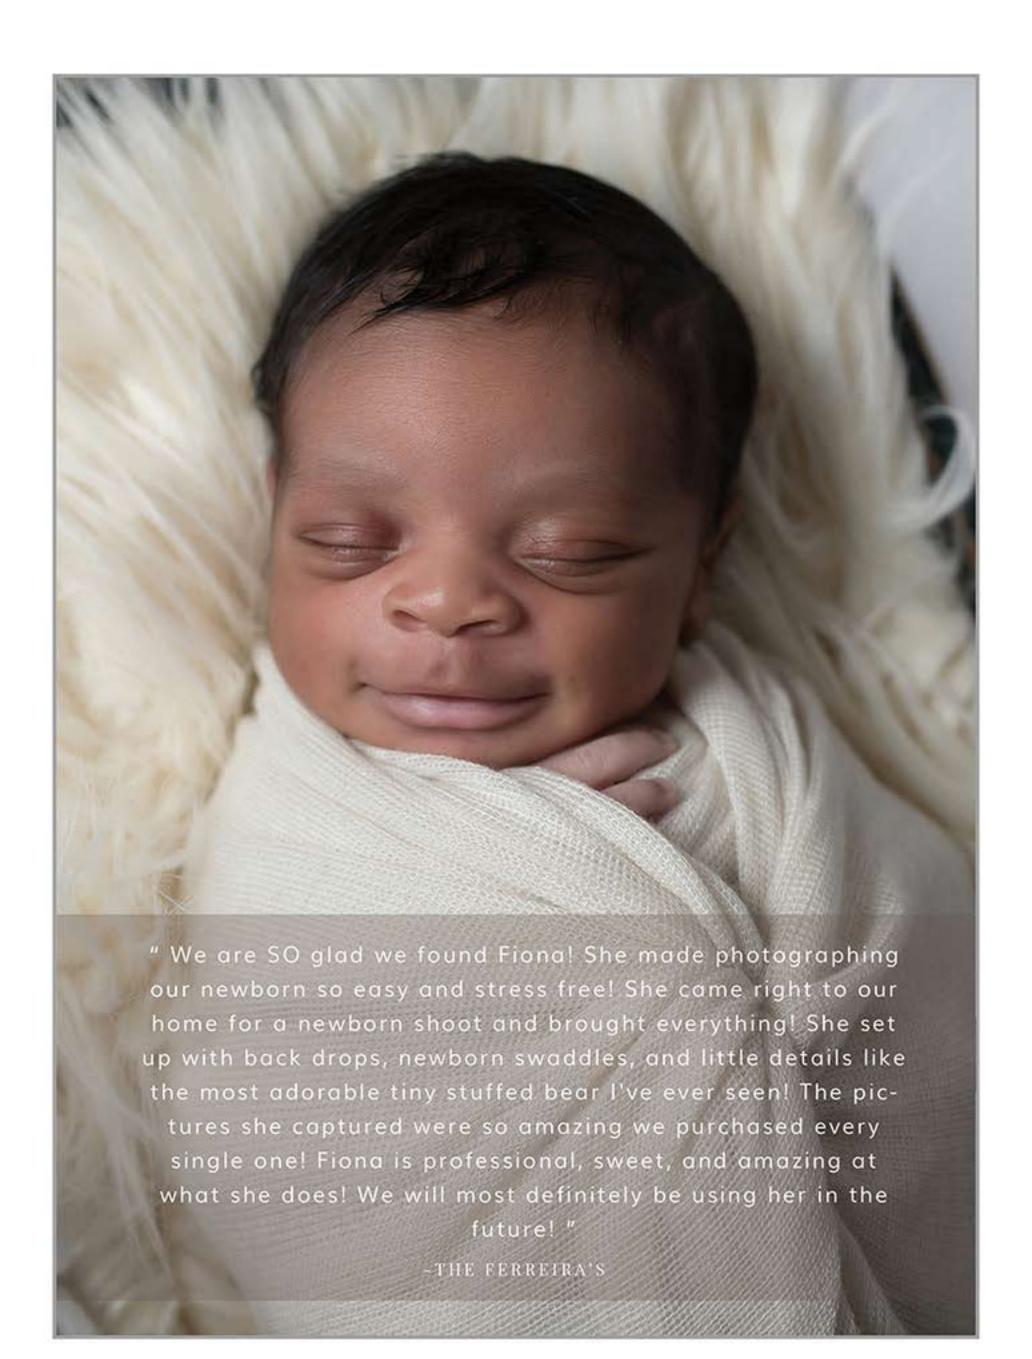

Our session will range from one to three hours in your home. Upon arrival I will set up my complete portable studio, we will address any last minute questions and then start the session. I will experiment with different poses, do some prop shots (complete with my portable floors), and parent and sibling shots if desired.

DURING YOUR SESSION AFTER YOUR SESSION

After your session, I will begin the photo editing process, including setting up your online gallery. This process generally takes one to two weeks. Once your gallery is complete, I will contact you via email with your link and password. This email will also include ordering information.

Session tips

1. WHEN

We recommend booking prior to your baby's birth so that we can ensure that your date will fall within the prime time for a newborn photoshoot. Plan to contact us when you are just over six months along. Baby's session should be scheduled within their first 14 days, with 7-10 days being the optimum window of opportunity.

2. WHERE

Newborn sessions take place at the baby's home, where everything is available if need be. Fiona will bring everything necessary for your session, from lighting and backdrops, to faux flooring, props, outfits, wraps and headbands. Ideally there will be a open space to work in, whether it be the living room or nursery. It does not need to

be a large space, but should be somewhere that can be heated and quiet. Feel free to use a calming aromatherapy if you like.

3. TIPS

Keep your baby fed and awake prior to your session. It can be difficult to keep baby from sleep, but it will be worth it for the session. Have your baby either in clothing than can be removed easily, or stripped down to a diaper and wrapped in a blanket. Plan for as quiet of a session as possible to keep baby calm and asleep. The most important tip I can offer is to just relax. There will be challenges at times, but we will quickly figure out what will work for you & baby! Since your session may last up to 3 hours, please plan accordingly let me know if you have any restrictions.

investment
